One Logan Square  
130 North 18th Street - Suite 1600  
Philadelphia, PA 19103

Dear Mr. Feldman:

On behalf of the Pennsylvania Department of Labor and Industry, I take this opportunity to personally thank you for taking time out of your busy schedule to participate as a speaker at the June 12-13, 2017 Workers' Compensation Conference.

| <b>Driving Safely – Part 1</b>   |                       |                         |
|--|-----------------------|-------------------------|
| Moderated by: Scott G. Weiant  |                       |                         |
| Speakers: Diane Brown, Joel D. Feldman, Richard Dunn   |                       |                         |
| <b>Level: Basic</b>  | <b>Room: Magnolia</b> | <b>Category: Claims</b> |
| <b>Comments (verbatim)</b>   |                       |                         |
| Very informative   |                       |                         |
| Almost too sad to sit through but very good info   |                       |                         |
| Mr. Feldman was powerful. Good policies to consider reviewing with safety team for CDL concerns  |                       |                         |
| The 3 speakers all had completely different presentations, but overall not bad.  |                       |                         |
| Statistics were eye opening. Very appropriate choice of subject matter. Everyone should attend!  |                       |                         |
| Excellent (x2) – should have it every year   |                       |                         |
| Great  |                       |                         |
| Really makes me want to be more cautious while driving. Way too many people on the road being distracted   |                       |                         |
| Applied to WC and your personal life. Save a life. Realized how many workers' responsibilities include driving.  |                       |                         |
| Best session of the conference – definitely left an impression   |                       |                         |
| Very moving and eye opening  |                       |                         |
| Good information; interested a bit more in WC/driving laws for employers; thought last speaker was good but focused a bit too much on teen drivers than workplace driving  |                       |                         |
| Interesting topic; well covered; absolutely loved the personal aspect Mr. Feldman shared with us; it must have been a struggle for him - 5+ stars!!                        |                       |                         |
| Well spoken  |                       |                         |
| Drive cam videos were great real life scenarios; the data statistics were helpful to take back   |                       |                         |
| Very engaging and thought provoking  |                       |                         |
| Outstanding; very real/relevant; screen too small  |                       |                         |
| Good variety of presenters; certainly made an impact with personal story to emphasize points; good "take away"   |                       |                         |
| Current information and very informative; a big room like Magnolia could use a larger screen for the PP's; audio was good for all presenters; the best I've seen in years! |                       |                         |
| Nice variety; there were some different focuses on the topic; Please, perhaps, let a driver talk so you can get that person's perspective                                  |                       |                         |
| Eye opening statistical data provided  |                       |                         |
