To Whom It May Concern:

In March 2018, we hosted Joel Feldman, speaker, on the topic of Distracted Driving. Mr. Feldman spoke to six high schools, a business luncheon that brought in a variety of professionals, SSM Health St. Francis Hospital-Maryville, Northwest Missouri State University (NWMSU) Transportation Fair, NWMSU Fraternity group and United Electric Cooperative – Maryville. The audiences varied from an intimate setting of 12+ people to over 750 people.

Mr. Feldman's presentations feel like a conversation between the speaker and audience. His personal experiences and professional expertise add a genuineness that, when combined with the information he provides, makes for an effective message. We appreciated his enthusiasm to speak to groups of varying age and experiences.

There is something for everyone in his presentations and we highly recommend Mr. Feldman for speaking on the topic of distracted driving.

Sincerely,

Tom Patterson, Administrator
