Dear Lear Corporation and Joel Feldman,

WOW! What a great day at Rochester Adams High School! I cannot tell you how grateful we are to LEAR, for sponsoring such an amazing program/initiative. The topic of distracted driving is relevant and real. Our students and staff who attended left school better people than when they arrived that day and for that, the Adams Family is thankful.

And to Mr. Feldman, on behalf of our students and staff, we are sorry for the loss of your beautiful daughter, Casey. I commend you for sharing your story to help others make good decisions and choices. Please know that you positively impacted students and staff, including myself, to make a change and pay attention to distracted driving to save lives.

Out of 1,550 students who attend Rochester Adams High School, approximately 1,400 students signed the distracted driving pledge banner to promise to pay attention while driving. Our students truly were impacted by your presentation and I have heard from multiple parents that the message was shared with them by their children right when they got home from school. Our Adams distracted driving banner hangs proudly in a high traffic hallway in our school.

Additionally, we thank LEAR for providing two distracted driving road signs that were installed on the two major cross roads surrounding our school. Students and parents have mentioned to me on numerous occasions that they like having those signs as reminders of driving safe and not distracted.

We also sent a communication to our parents/guardians explaining the presentation and providing access to the powerful videos and statistics that were presented. This communication was well received by our community.

In closing, we are so fortunate for the partnership with LEAR and we hope that we can continue to partner up and help our community learn and reflect on important topics like distracted driving. Thank you for making a positive impact on Rochester Adams High School.

Sincerely,

Pasquale Cusumano
Principal
