

To whom it may concern,

My name is Kevin Krysiak and I am the Physical Education Teacher and SADD Moderator at Brother Rice High School. My three freshman PE classes had the privilege of hearing Joel Feldman and Beth Christie's presentation on distracted driving. The presentation was well put together and they were able to get their message across in only 45 minutes. All of my students were engaged the entire time and were asked questions by both Joel and Beth. The personal stories they both told were well received by my students. The videos that were in the presentation were relatable and I could tell that each of my students felt as if that could have been themselves or a loved one in each scenario.

I would also like to take the opportunity on behalf of my students and Brother Rice High School, to personally thank Joel Feldman, Beth Christie, and Lear for making the presentations possible. My students were truly blessed to have had the opportunity to have such a great presentation just as they are learning to drive. It is very evident that Lear is committed to keeping the surrounding community safe for everyone. I know that having a great community partnership with Lear and Beth Christie means a lot to Brother Rice. I hope this partnership continues to grow in the future.

Sincerely,

Kevin Krysiak
