To Whom It May Concern,

We had the privilege of hosting Joel Feldman at our GCU quarterly safety training, and I cannot recommend him highly enough. Joel's presentation was not only powerful but also deeply moving. His story, born from personal tragedy, is one that touches every person in the room—driver or passenger—and his delivery is sincere, thoughtful, and incredibly impactful.

Joel has a remarkable way of connecting with his audience. He uses relatable, real-world examples that make you reflect on your own habits behind the wheel. His ability to transform heartbreak into a mission of purpose is inspiring, and his commitment to ending distracted driving is nothing short of phenomenal.

The impact on our team was immediate and profound. Many of our drivers walked away from the session with a renewed sense of responsibility and a completely different perspective on distracted driving. It sparked real conversations and real change—exactly the kind of result you hope for in a training session.

Joel is doing truly important work, and we are incredibly grateful to have been part of it.

Sincerely,
